Colorado Department
of Public Health
and Environment

January 10, 2012

Dear Parents of Students in Colorado Child Cares and Preschools (School Year 2012-13);

Immunizations are an important part of our children's health care and Colorado law requires that children going to school be vaccinated to prevent vaccine-preventable disease. The purpose of this letter is to let you know which vaccines are **required** for school attendance and which vaccines are **recommend** for best protection against vaccine-preventable disease (see chart on second page).

As a parent, it is important to know that in addition to the vaccines **required** by the state of Colorado Board of Health for school entry, there are vaccines that are **recommended** by the Advisory Committee on Immunization Practices (ACIP). This is the immunization schedule that will best protect your child from even more vaccine-preventable diseases.

Parents often have concerns or want more information on children's immunizations and vaccine safety. A resource developed for parents with frequently asked questions about the safety and importance of vaccines can be located at: www.ImmunizeForGood.com. The Colorado Immunization Program's website is located at: www.ColoradoImmunizations.com.

Child Cares and Preschools work hard to ensure compliance with the immunization laws. Your help in providing updated immunization records at school registration and when your child receives additional vaccine(s) is greatly appreciated. *Please discuss your child's vaccination needs with your child's doctor or local public health agency. (To find your local public health department's contact information call the Family Health Line at 1-303-692-2229 or 1-800-688-7777). Please bring your child's updated immunization records to the school each time your child receives an immunization.*

Sincerely,

Colorado Immunization Program
Colorado Department of Public Health and Environment
303-692-2650

MINIMUM NUMBER OF DOSES REQUIRED FOR CERTIFICATE OF IMMUNIZATION
Child Care through Preschool, 2012-13 Required for Attendance

DISEASE/VACCINE	LEVEL OF SCHOOL/AGE OF CHILD							
	Child Care							Preschool
	2-3 mos.	4-5 mos.	6-7 mos.	8-11 mos.	12-14 mos.	15-18 mos.	19-23 mos.	2-4 years
	<i>Vaccines administered ≤ 4 days before the minimum age are valid</i>							
Pertussis	1	2	3			4		
Tetanus/Diphtheria	1	2	3			4		
Polio: <i>A laboratory test showing immunity is acceptable.</i>	1	2	3					
Haemophilus influenzae type B (Hib): If any dose is given at or over 15 months of age, the requirement is met. If a child begins the series before 12 months of age, 3 doses are required, of which 1 dose must be administered at 12 months of age or older. If the 1 st dose was given at 12 to 14 months of age, 2 doses are required. No new or additional doses are required when the child turns 5 years of age.	1	2	2	3/2	3/2	3/2/1	3/2/1	3/2/1
Measles/Mumps/Rubella (MMR): The 1 st dose will not be counted as valid if given more than 4 days before the 1 st birthday. <i>A laboratory test showing immunity is acceptable.</i>					1			
Hepatitis B: The 2 nd dose must be administered at least 4 weeks after the 1 st dose. The 3 rd dose must be administered at least 16 weeks after the 1 st dose and at least 8 weeks after the 2 nd dose. The final dose is to be administered no sooner than 24 weeks or 6 months of age. (A child who has not received 3 doses by 7/1/09 is required to follow these minimum intervals). <i>A laboratory test showing immunity is acceptable.</i>	1	2	3					
Chicken Pox (Varicella): The 1 st dose cannot be counted as valid if given more than 4 days before the 1 st birthday. Documentation of the disease can be provided by a health care provider (MD, DO, RN, PA). <i>A laboratory test showing immunity is acceptable.</i>					1			
Pneumococcal Disease (Pnevnar/PCV): If 1 st dose started before 6 months of age, 3 doses, two months apart required, with an additional dose at 12 to 15 months of age. (If 3 rd dose is given on, or after, the 1 st birthday, the 4 th dose is not required). If 1 st dose is given at 7 to 11 months of age, 2 doses are required, 2 months apart, with an additional dose between 12 to 15 months of age. Any doses given between 2 to 4 years of age, the requirement is met. No new or additional doses are required when child turns 5 years of age.	1	2	3/2				4/3/2	

“RECOMMENDED” VACCINES FOR THE BEST PROTECTION AGAINST
VACCINE-PREVENTABLE DISEASE (not required)

VACCINE/DISEASE	LEVEL OF SCHOOL/AGE OF CHILD	
	Child Care	
	Child Care	Preschool
Influenza (Flu)	Flu vaccine is recommended for individuals 6 months of age and older to prevent respiratory illness, and sometimes death, caused by the flu virus.	
Hepatitis A (Hep A)	2 doses of this vaccine prevent the disease that can affect the liver causing fever, fatigue, loss of appetite, stomach pain, vomiting, and in rare cases, death.	
Rotavirus (Rota)	3 doses of the vaccine are recommended for children (2 to 8 months of age) and protects against an illness that can cause fever, irritability, vomiting, and diarrhea.	

An excellent parent website has been developed to assist you in learning about vaccine safety, as well as, general vaccine recommendations for the prevention of disease: www.ImmunizeForGood.com

You must provide one of the following to your child's school in order to comply with the law:

1. A completed Certificate of Immunization certifying that the student has received minimum immunizations, as indicated above.
2. If a student's Certificate of Immunization is not up to date, the parent, guardian, or emancipated student has 14 days after notification to provide documentation that the next required immunization was administered, and submit a written plan for completion of any additional required immunizations. If the plan is not completed, the student shall be expelled or suspended from school for non-compliance. Exception to this is a shortage of vaccine.
3. Statement of Exemption to Immunization Law printed on the reverse side of the Colorado Department of Public Health and Environment Certificate of Immunization:
 - a) a medical exemption signed by licensed physician stating that the student's physical condition is such that immunizations would endanger life or health or is otherwise medically contraindicated; or
 - b) a religious exemption signed by the parent, guardian, or emancipated student that the student adheres to a religious belief opposed to immunizations; or
 - c) a personal exemption signed by the parent, guardian, or emancipated student that the student adheres to a personal belief opposed to immunizations.

Immunization requirements will be strictly enforced for all students. Students who do not meet the requirements will be denied attendance according to Colorado Revised Statutes 25-4-902.
